Allowable Subject Matter

1. Claims 16-24 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not teach or fairly suggest determining by the cable modem if the initial maintenance opportunities contains a unicast identifier and if the first of the plurality of second identifiers is not unicast, the cable modem uses the first of the plurality of initial maintenance opportunities for standard contention ranging. The Unger reference discloses the use of a unicast identifier in an initial maintenance opportunity. The reference fails to disclose the concept of using standard contention ranging if the initial maintenance opportunity does not contain a unicast identifier.
